

Audrain Concours 2022 By Sam Hallowell

To most people, thoughts of Newport, Rhode Island, often trigger images of large sailboats gliding about the harbor, art museums, and gilded age mansions, but not classic automobiles.

However, in 1900, William K. “Willie” Vanderbilt II, hopped into his foreign import and joined some of his wealthy friends with cars at the Aquidneck Park horse track for a series of races he put together. Many consider that gathering as the birth of competitive racing in the US.

Flash forward 122 years and the Newport area now hosts two new and growing car museums, the Audrain Auto Museum and the Newport Car Museum, both offering a wide variety of cars on display.

The granddaddy of the two is the Audrain Automobile Museum founded in 2014 with a mission of “Preserving, Celebrating & Sharing Automotive History.”

It is located in a restored historic building on swank Bellevue Avenue next to the Newport Casino, home of the International Tennis Hall of Fame. The Museum rotates exhibits of 15-20 cars and motorcycles at a time from their own inventory and regularly includes loaners from renowned private collections.

In 2019, Donald Osborne, newly appointed CEO of Audrain LLC, announced the first annual Audrain Newport Concours d’Elegance & Motor Week. The Concours was held (where it continues today) on the back lawn of the famous Vanderbilt mansion, known as The Breakers, overlooking the ocean.

Eighty five vehicles were invited for display and judging that year. 2020 was a bust but the Museum started a video series featuring various cars driven by Jay Leno and Osborne around Newport, a driving tour and cars & coffee events around city.

The 2021 celebration was marked by many more cars and beautiful weather.

This year the motor week ran from Wednesday, 9/28 to Sunday 10/2. The Museum announced that 180 vehicles were participating chosen by a committee including Museum Chairman Nicholas Schorsch, Donald Osborne and Concours Executive Director Nic Waller.

The shows popularity continues to spread and is now attracting serious collectors from around the US and abroad. Registration, seminars and a welcome dinner greeted us Wednesday.

In the days that followed people could partake in many more seminars, social gatherings, vendor booths, an autograph session and an evening gala with a 1970s theme headlined by Jay Leno (who has a house in Newport).

In addition, there was a gathering of cars with champagne refreshment at Doris Duke’s estate Rough Point and a Bonhams auction Friday while Saturday featured an early morning 2 ½ driving tour.

Returning to Newport, the cars parked along Bellevue Avenue for public viewing while drivers and friends had lunch nearby. A busy schedule similar to Monterey Car week I suspect.

The first three days of events had glorious fall weather, but the remnants of Hurricane Ian arrived in force and hit Rhode Island with cloudy skies, heavy rain Saturday with 30-40 mph winds on Sunday.

Despite the terrible, soggy, conditions, a hardy group of 25 to 30 cars (including Tom Yang and I in my 1972 365 GTC/4) showed up early Saturday morning for the 2 ½ hour tour as thoughts of *Gilligan’s Island* flashed through my mind.

True grit shone forth that morning. It was raining buckets, puddles were deep and getting deeper with the wind strong enough to blow water through windows cracked open a bit (for those cars that had them!) to help clear foggy windshields, and it was cold.

Francesca Dolnier photo

Some notable cars in the event were a 1931 Duesenberg Model J Dual Cowl Phaeton, 1939 Alfa Romeo 8C 2900B Berlinetta, 1966 Ford GT40 Mk 1, 1930 Bentley Speed Six Gurney Nutting Coupe, 1952 Ferrari 212 Inter Coupe and 1967 Ferrari 330 GTC. More on some of them later.

It was a remarkable turnout, especially as participants got no credit for participating unlike the Monterey tour. The only casualty I saw along the way was

the Ford GT Mk 1 that drove through a deep puddle frying its electrical system. No matter; next day they were on the grid, pushed up to the podium to receive the class award for British Sports Cars 1945-1980.

The concours field was crowded Sunday. We arrived early for placement on the lawn, the dawn patrol greeting us with waves and pictures as we entered through the main gates of the mansion.

A fantastic and friendly crew of Audrain volunteers spent much of the Saturday night laying down plywood panels to prevent us from sinking into the mud as we passed around the corner of house. We were then lined up in class groups, our 11 Ferraris being one of the largest, a fitting tribute as Ferrari is celebrating its 75th birthday.

Whereas IAC/PFA judging focuses on sticker label placement or the types of screws in trim pieces, the judges at Audrain were tasked by the concours committee to employ a riff on the "French" judging method emphasizing "History, Luxury & Sport" unlike the FCA Annual Meet which focuses heavily on "as it left the factory".

Now I have to apologize. I tried to take pictures of the Ferrari judging, as well as the concours field at large, but my ancient cellphone was not up to the task.

These are the 11 cars in our group listed by age:

1951 212 Inter Vignale/Drogo convertible S/N 0147 E by Nick Soprano

1951 212 Inter Vignale Coupe S/N 0157 EL by Donald and Carol Murray

1953 212 Inter Vignale Coupe S/N 0267 EU by Bradley and Buzz Calkins

1953 250 MM Vignale Spyder S/N 0260 MM by The Cultivated Collector

1967 365 California Spyder S/N 10077 by Nethercutt Collection

1967 330 GTC S/N 11077 by Tom Larsen

1968 206 GT S/N 00210 by Stephen Serio

1970 246 GT/L S/N 01016 by Bradley and Rebecca Chase

1970 365 GTC/4 S/N 14953 by Sam Hallowell

1981 512 BB S/N 37717 by Ben Blake

1992 F40 S/N 93380 by Scott Sherwood

The concours featured music, streaming videos, tents with food and drink, booths with vendors surrounding a large crowd rolling about the cars.

They peppered us with questions and smiles while the sixty-five judges did their thing.

Later that afternoon we experienced all the pomp and circumstance that flows around the awarding of many class and special prizes.

Despite the inclement weather, the Audrain staff and volunteers pulled off a wonderful event. Kudos to Donald Osborne and his crew and Best of Show winner the 1930 Bentley Speed Six Sports Saloon owned by William Medcalf.

Our Ferrari class did very well too. The beautiful 1952 Inter Vignale Coupe owned by Bradley and Buzz Calkins won the Ferrari Class award, while the special "Sporting Choice" prize went to The Cultivated Collector for their 1953 250 MM Vignale Spyder.

No doubt about it, I will be back October 1, 2023, to see what the Museum pulls out of its hat next.

Passages 2022 By Jim Weed and others

LYLE TANNER

February 7, 1939 – October 22, 2022

I find the obituaries are the most difficult to write. Some I know of and others I knew well. Lyle Tanner is one of the latter. Trained as an engineer, he worked for the city of Los Angeles until the Ferrari bug bit him hard. He bought and sold many early Ferraris and was well acquainted with Ed Niles and others within the Los Angeles Ferrari community.

It was natural he would start a parts business selling Ferrari parts to keep many cars running and driving. There was a time when parts suppliers were few and while places like FAF, Algar and Bill Rudd were out there, Lyle Tanner Enterprises became one of the go-to places to purchase the hard-to-find parts.

This love of finding parts did not diminish throughout the years. Even when moves took him to places beyond his native California, he still had the contacts necessary to find the un-obtainium.

He was active in the Ferrari Owners Club and served as club president in 1977. For his dedication he was awarded the Hans Tanner Memorial Trophy by the Ferrari Owners Club in 1979.

His many friends included the likes of Phil Hill, Mauro Forghieri, David Piper and this writer. Rest in peace, Lyle.

NICOLA MATERAZZI

January 28, 1939 – August 24, 2022

Materazzi was an Italian mechanical engineer and one of the most prolific designers of the 1970s, 1980s, and 1990s. He worked for several different companies such as Lancia, Cagiva (motorcycles), Osella (F1), Bugatti, B Engineering and Ferrari.

He was hired by Ferrari in 1979 for his expertise in forced induction. Materazzi brought his knowledge of turbo charging to the Formula One team. The 126C Formula One engine came to life and was continually developed under his guidance.

He is also credited with the development of the Testarossa, 412 and 328 Turbo as Chief Engineer. His greatest fame came from developing the 288 GTO and F40 engine. Changing the engine orientation to longitudinal allowed a turbo-charged engine to have equal length exhaust.

Materazzi left Ferrari in 1987 and went on to be Technical Director for Cagiva motorcycles, Bugatti EB110, Laverda and B Engineering. He retired in 2006.

JOHN RIDINGS LEE

May 1, 1937 – August 17, 2021

Lee was a long-time Ferrari owner from Dallas, Texas. His car collection featured many different Ferraris ranging from a 212 Inter to a 308 GTB. Anytime he brought a car to a Ferrari event you could count on it being a contender for a class win. All of his cars were immaculate.

Lee was one of the early subscribers to the *FML* and a customer of FAF. He will be missed.

DR. FRED SIMEONE **June 8, 1936 – June 11, 2022**

Dr. Fred Simeone was the head of neurosurgery at Pennsylvania Hospital in Philadelphia, PA. He was well regarded as a brain surgeon. This accomplishment might be enough to be remembered forever, but this renown pales in comparison to his contribution to automotive history.

His collection of automotive history spanned several decades. He was drawn to automobiles with significant history and providence. His thrill was researching and documenting each car for past ownership or racing placement.

It was this love of automobiles that he wanted to share. In 2008 he founded the Simeone Foundation Automotive Museum to display and honor that history. Many of the cars he collected were not immaculately restored. He felt the bumps, bruises and scratches all had a story to tell about the car's history.

Simeone was a collector, historian and archivist interested in sharing the story of the automobile as a form of art. His foresight and willingness to share will keep his legacy alive for many decades to come.

An extraordinary man in life and hereafter.

ALAIN de CADENET **November 27, 1945 – July 2, 2022**

De Cadenet was educated at Framlingham school in Suffolk. He began his working life as a fashion and music photographer.

Soon after a visit to Brands Hatch he was driving an AC Ace to earn his racing license. His first sports car events were with a Porsche he bought from a friend.

During the 1968 and 1969 season he raced a Dino 206 SP several times in England, Sweden, Italy and Portugal. His highest placement was finishing 6th overall in the Portugal Vila Real 6 Hour.

In 1971 he drove a 512 M for Ecurie Francorchamps at Le Mans, sharing the drives with Hugues De Fierlant but did not finish. He then took the car to Watkins Glen 6-hour and finished 4th overall with co-driver Lothar Motschenbacher.

De Cadenet then turned to Lola and competed over the next several years. He drove at Le Mans over thirteen times, even if he wasn't competing elsewhere.

He began a new career as a presenter of TV programs about cars and aircraft for cable channels, including the *Victory by Design* series for the Speed Channel.

He was a fixture at vintage and classic racing events around the world, often driving vintage Alfa Romeos and describing their history.

Last of the privateers, he often bested factory teams. His exuberance in the pits at the racetrack will be missed.

MARK LYON **1963 - 2022**

Mark Lyon, founder and CEO of GTO Engineering, passed away unexpectedly on Sunday 1 May from a heart attack. A born leader and teacher, a genius dealmaker with a vision to restore, revive and race Ferraris around the globe, Mark grew GTO Engineering from him working in a single garage to operations in three

countries with over 50 full-time staff.

Lyon paved the foundation for a successful, thriving, and dynamic business, with advisors and department heads working under his guidance.

GTO Engineering has three worldwide sites (Italy, UK and USA), and remains open for business.

SILVANO TONI **1950 - 2022**

Silvano Toni, one of Maranello's most well-known entrepreneurs, passed away August 21, 2022. The founder of Toni Auto, Franco Toni, worked in the Ferrari racing department in the 1950s. His son, Silvano Toni also followed his father's footsteps to Ferrari.

In 1975 Toni Auto was formed and over the decades Silvano poured into his business a great passion for historic cars and supercars, with a professional quality and attention to detail that was recognized internationally. In his management of the family business, in his ability to root it in his own land and in his craftsmanship, we find the most representative elements of our territorial identity, based above all on the love for Ferrari.

The attention with which he took care of the cars, Silvano united an innate sympathy and a jovial character that made it easier for him to see the aesthetic and positive side of things.

His sons Davide and Andrea are the future. Both are passionate and knowledgeable; they share the same experience handed down over time.

They are the guardians of the most important and valuable aspect that has always made Toni Auto one of the most prestigious in this field: the historical memory.

JOHN LYLE "JACK" BABBITT **April 10, 1940 - June 10, 2022**

John Lyle "Jack" Babbitt, age 82, of Westerville, OH, passed away June 10, 2022. Born April 10, 1940, to Lyle J. and Dorothy L. (Braun) Babbitt. Survived by his wonderful wife of 57 years, Nancy Jane (Miller) Babbitt; sons, Geoffrey Alan (Aisling) Babbitt of Dublin, OH and Gregory Alan (Callie) Babbitt of Rochester, NY; grandchildren, Nora Caroline Babbitt, Colin Lyle Babbitt and Sheamus John Babbitt; brother, Bruce Edward (Aldona) Babbitt of Delaware, OH; cousins, nieces and nephews.

In 1999 Jack founded NJB Automotive, a full-service repair and restoration shop in Central Ohio. He grew the business to include buying, selling and brokerage services of Italian exotics, and later added storage, detailing, consulting, and financing services which allowed him to expand his mechanical equipment by adding the latest diagnostic systems. Many of the cars that came through his shop have graced the concours field at regional and national events.

Jack was a friend of so many and a large figure in the Ferrari world. Many of his clients trusted his advice and recommendations for service on their Ferrari. This comment was found online: He was a great guy to talk to and an even better person. Hardworking, helpful, kind and honest are words often repeated in tributes to Jack. Everyone has good things to say about Jack.

Also known for his sense of humor, Jack would give out little yellow rubber ducks and his customers have sent him photos from all over the world of his NJB ducks in all sorts of locations and poses. To honor Jack, the Ferrari Club of America – Ohio Chapter, created a Jack Babbitt Memorial Award in honor of his time, dedication and generosity. Yep, the award sports a yellow rubber duck.

Kevin Perry who worked with Jack for many years has assumed responsibility for the shop and is working with the family during the transition.

WILLIAM FREEMAN RUDD **July 1, 1930 – May 9, 2022**

I am saddened at the passing of William F. Rudd, or as he was known to many, Bill. I worked for and with him for about a decade. Bill was like a grandfather to me. He was meticulous, innovative, and a visionary who taught me the majority of what I know about Ferrari parts and collecting data on them.

While he had his repair shop on Oxnard Street in Van Nuys, he began to expand the parts department to stock more parts for the cars in his shop. Getting parts back in the day wasn't quick or easy. Nor was obtaining any information or even parts books.

He began to obsessively document any information he could gain from the parts. Sizes of bearings and oil seals with brand names and dimensions so he could possibly source parts stateside instead of mailing a letter or later a Telex to Europe and impatiently wait for the ship to come in.

He eventually closed the repair shop and moved the parts to a building on Delano Street in Van Nuys. The parts business began to grow as word spread that this was a great source for parts.

He set up the warehouse with the parts by groups and started to make "kits" for common services. Kits were pre-packaged in per car or per job quantities. Since the business was at this point a mail order, this made pulling parts much easier for shipping.

Pull a couple prepackaged kits instead of 27 separate parts there was less chaos and more product moving out when UPS showed up. He stocked parts from a mechanical perspective which served him well.

I believe it was after the 1994 Northridge earthquake when he moved the business to Scottsdale, AZ. It was here that I came on board. He revolutionized the Ferrari parts industry and the processes he developed are still in use today. Rest in peace, my friend. *From Brian Keegan*

MAURO FORGHIERI **January 13, 1935 - November 2, 2022**

One of the best-known Ferrari engineers has passed on at the age of 87.

Forghieri's name is nearly as synonymous as Ferrari's other great engineers. Colombo, Lampredi and Forghieri each have etched their place within Ferrari history.

Reclus Forghieri, Mauro's father, was a machinist and after the war was hired by Ferrari. The son earned his Mechanical Engineering degree from the Univer-

sity of Bologna.

Needing a job, Mauro's father recommended his son to Ferrari. In 1960 he began work as an apprentice in the engine department. Working alongside other excellent engineers such as Jano, Chiti and Bazzi he had experienced talent to learn from.

Near the end of his second year with Ferrari the great Palace Revolt left Forghieri alone in the engineering department and Enzo Ferrari promoted him on the spot to head the racing program.

At the age of 27 he was responsible for the entire racing technical design and engineering, but also other technical development elsewhere in the factory.

Many of the sports cars fielded over the next nearly two decades had been overseen by Forghieri. The 250 GTO, and P-Series sports cars all owe their success to his capable skills.

In Formula One, the 156 V-8 engine was designed by him and later the 312 F1 engines that powered not only Formula cars but also used in the 312 P and 312 PB sports cars were credited to him.

In addition to engines, he also drafted the first monocoque chassis Ferrari ever used. His expertise extended to production cars with him having a hand in solving technical problems with these cars.

Clearly, the racing program required much in the way of time and expertise, but it paid off in many ways. Eight Constructors' Championships were under his watchful eye including back-to-back-to-back wins in 1975, 1976 and 1977 and another back-to-back Constructors' win in 1982 and 1983.

Between 1961 and 1987, Forghieri was instrumental in helping Ferrari win five drivers championships. Names like Hill, Surtees, Lauda and Scheckter all owe their wins to him.

In 1987, Forghieri left Ferrari to pursue other interests. He spent some time with Lamborghini and designed a V-12 used by the Larrousse/Lola F1 team in 1989.

Later he became the technical director of Bugatti in 1992 and stayed until 1994 working on the EB 110 and EB 112.

In 1995 he founded the Oral Engineering Group, a mechanical design company that was involved in the design and development of automotive, marine and motorcycle engines.

Even in retirement Forghieri kept his mind active with small projects and research. He was a fixture at many vintage events where his creations were being used on the track as Ferrari and Forghieri intended.

Possibly even more influential in Ferrari history than any other engineer, Forghieri stands tall. Grazie per tutto quello che avete fatto.

The Ferrari Place

I am excited to announce THE FERRARI PLACE, a book compiled and expanded from a 3-part series on FAF Motorcars that ran in the Ferrari Club of America Quarterly, PRANCING HORSE.

Situated at the end of a gravel-strewn road behind a concrete plant in Tucker, GA., FAF exceeded expectation to make an indelible impact on North American enthusiast culture. Memories and observations from many of FAF's former staff, competitors, customers, and enthusiasts are illustrated with rarely seen photos, beautifully designed by David Williams.

A sewn-bound, offset press hardback with a laminated case-wrapped cover, each copy of this extremely limited first run will be hand-numbered.

288 GTO REBODY, VIN ZFFUA13A5E0052435. Rosso corsa with nero interior. Commissioned by its current owner and built by QV of London, this project took four years to complete using original Ferrari OEM parts throughout. All panels were produced from molds taken from an original 288 GTO; donor car was a US spec 308 QV; powered by a 348 engine and gearbox. All hinges, mirrors, louvers and badges are correct to GTO spec; all mechanical parts have either been renewed or overhauled/re-built; wheels and tires are brand new. QV of London serviced the car in February where the cambelts were changed and it has since had new rear brake calipers and handbrake mechanism. 64,100 miles. **\$150,000.** 4723

246 DINO BUMPERS: U.S. VERSION - FOUR BRAND NEW, still in factory packaging ... never opened. These bumpers have never been used. In 1979, at the age of 19, I bought my first Ferrari in Modena, Italy. Knowing that I would have to bring the car up to DOT and EPA specs, I went to the Ferrari Factory in Maranello Italy and bought four extra bumpers at the factory (because I was afraid I might screw things up when modifying the existing European version bumpers while attempting to meet DOT specs). The bumpers are STILL in the factory plastic and tape, and they have never been touched by human hand since the summer of 1979. \$6,000 USD OBO. 4717
