

## Auctions, Auctions, and more Auctions By Jim Weed

### Mecum Auction - Indy 2020 July 10-18

*The Mecum auction had the most significant sales of all the auctions presented in this issue. There were two collections with some exceptional Ferraris.*

*Most were low mileage, virtually brand-new cars. Many of the cars that sold will never be driven or used. They will forever be museum pieces.*

*Several other Ferraris had unrealistic estimates that supposedly made it to and even beyond the low estimate and did not sell. This makes the results of the sale cars somewhat suspect.*

*While the cars that sold were high level cars and the prices reported were exceptional, the inconsistencies should be noted.*

## Artcurial Sale Monaco July 21, 2020

*The Artcurial Sale was at the other end of the scale. Most of the Ferraris were average or just above average.*

*European cars typically have more mileage because Europeans tend to enjoy their cars more than Americans. Maybe we should learn something from them.*

*There were many no-sale cars and unfortunately, I didn't get to the website in time to get the high bid amounts. The general assumption is if the bid makes it to the low estimate it will be sold.*

*High estimate ranges can mean the seller is reaching or has unrealistic expectations. I believe the prices realized, translated into dollars, would be comparable to equal value of Ferraris in America.*

## RM Sotheby's Open Roads NA July 23-30, 2020

*RM Sotheby's Open Roads North America auction had nine Ferraris. Three Testarossas, a couple of Mondial Cabriolets, a 612 Scaglietti and one each: 412, 308 GTS and 348 Spider.*

*Once again, I didn't get into the auction in time to gather the estimate ranges, so I did not include any of the no sale cars. Without that piece of information there is no reference point to determine if the seller's expectation was too high or if the buyers were not spending.*

*The three sale Ferraris are presented here.*

*The note on the 308 GTS is interesting. The chassis number does not match the title, dataplate or column. Typically, the non-removable chassis stamping rules when it comes to chassis number. Mistake or not, only Ferrari could straighten it out. It takes a bold owner to purchase this potential nightmare.*

**TESTAROSSA, VIN ZFFTA17B000057389** (1985). Rosso Corsa with beige and brown interior. Early single-mirror "monospecchio". Delivered new to Amman, Jordan, it remained in that country only a short time before being imported to the United States. In 1988 it was purchased by the consigning family; throughout this long-term ownership, it is said to have been consistently maintained. As documented by invoices the car had a major service in 2020. The installation of new timing belts, a new clutch, a new main seal, a rebuilt water pump, and more. Exterior paint, believed to be original, exhibits some rock chips and other minor wear typical for a car of this mileage. 58,579 km, or 36,400 miles. New dashboard and well-preserved interior. Currently fitted with a Tubi Style exhaust, the original exhaust is included. Service history from the year 2000 onward, owner's manuals, original warranty card, tools, spare keys, jack and spare tire. Lot 196. Sold for \$84,000.

**308 GTS, S/N 24701** (1978). Rosso chiaro with black and tan interior. Sold new through Continental Motors of Illinois. Exterior features Vitaloni "California" mirrors and Cromodora wheels. Interior features a MOMO "Prototipo" steering wheel and Blaupunkt radio with cassette. Offered with manuals with pouch, tool roll, flashlight, and jack. 10,956 miles. Addendum from RM: Please note that in the three locations where the chassis number is found, it has been discovered that the steering column number and door sill plate number match one another, but the number stamped into the rear frame interestingly has two digits reversed. Although unconfirmed by the factory, it is strongly be-

lieved that this is merely attributable to a typographical error in period and therefore is believed to not put the car's purity in question. Lot 137. Sold for \$33,000.

**MONDIAL T CABRIOLET, VIN ZFFF-C33A9K0082550** (1989). Black with crème interior. Sold new in 1989 to Jon Shirley, who at the time was Microsoft's President and Chief Operating Officer. Mr. Shirley would keep the car for six years, covering 8,000 miles. The next owner would go on to enjoy the car for 19 years. It was subsequently purchased in 2014 by the next owner, who negotiated an engine-out service be completed as part of the deal. He would enjoy it until 2016 when it was purchased by the current owner. 34,856 miles. Black convertible top. A crème top boot cover. Manuals with leather pouch, tool kit, and select service records. Lot 140. Sold for \$34,100.

## Gooding & Co. Geared Online August 3-7, 2020

*The Gooding auction featured a variety of high quality and average Ferraris.*

*Buyers have been selective in acquisitions adding to their stable the best or at least better Ferraris while average, mediocre cars have continued to be either no sale or sold for prices that appear to very reasonable.*

*This would make it a good time to buy a driver or less than perfect car if sellers did not have an inflated view of value. Many of these Ferraris are starting to approach first time buyer territory and may help new owners feel like Ferraris could be affordable.*

*Of course, it takes a lot of money and time to bring a mediocre car up to Platinum standards but that shouldn't prevent the fun factor of driving and enjoying a Ferrari as they were meant to be.*

**275 GTB, S/N 8921** (1966). Bianco with tan leather. Estimate \$2.75 million to \$3.25 million. Completed in September 1966, sold to its first owner in Genova, Italy. It remained in Italy through 1969, when it was sold to Luigi Chinetti Motors. 81,000 km (50,000 miles). Service records dating back to 1969, when it was still being serviced by Luigi Chinetti Motors. Original, unrestored condition, retaining patinated beige leather upholstery and much of its distinctive Bianco paint. Marchal driving lamps and chrome prancing horse, center console is fitted with a Blaupunkt radio and a Jaeger chronograph. Two sets of wheels: Campagnolo alloys and Borrani wires. Original owner's manual and spare parts list and literature. Documentation file includes ownership and registration records dating back to 1969, copies of ACI registration records, and history report by Marcel Massini. Lot 056. Sold for \$3.08 million.

**F50, VIN ZFFTG46A6S0104755** (1995). Targa 095/349. Argento Nürburgring with black leather, red cloth seat centers. Estimate \$2.2 million to \$2.6 million. The first owner was a Texas resident in 1996. By 2002, the subsequent owner was searching for a US-spec F50 painted in Argento Nürburgring. Failing to find the desired color combination, he purchased this F50 from Ferrari of Houston. Maintaining his desire to have a silver F50, he asked the selling dealer to repaint the car. Recent comprehensive service in November 2019. During the service, an attempt was made to repair the F50's inoperable fuel-level gauge, however a fuel-level sender was not available from Ferrari. Accompanied by tools, manuals, luggage, hardtop storage box, car and seat covers, as well as various service and repair invoices. 10,125 miles. Lot 070. Sold for \$2.13 million.

**ENZO FERRARI, VIN ZFFCW56AX30134948** (2003). Argento Nürburgring with tan leather. Estimate \$2.2 million to \$2.6 million. Purchased new from Ferrari of Houston. In the history file is correspondence that documents the buyer's wish for an Argento Nürburgring with tan leather seats, but an otherwise black interior. 7,100 miles and single-family ownership since new. Records attest to maintenance including June 2020 engine-out service, new tires and battery, and rebuilt air-conditioning compressor. Additionally, during this service, Classiche certification was applied for and is pending approval. It should be noted that the rear spoiler actuator system is currently inoperable. Accompanied by tool kit, wheel socket, luggage, car cover, manual, window sticker, and photos of the car being picked up in Houston. Lot 047. Sold for 2.36 million.

**328 GTB, VIN ZFFXA19A2J0077338** (1988). Rosso Corsa with beige leather. Estimate \$100,000 to \$140,000. 23,695 miles. Highly original, and in 2018 at the Palm Beach Cavallino Classic, it won a Platinum Award. When acquired by the consignor in 2017, it had recently received a major service by Brian Crall of Hill Country Ferrari Service. Lot 053. Sold for \$148,500.

**F40, VIN ZFFMN34A4N0090446** (1992). Red with red seats, black interior. Estimate: \$1.25 million to \$1.5 million. Purchased new through Lake Forest Sportscars in Illinois, and has been in the same family since. 4,600 miles. It has had consistent care and is to retain its original finishes. March 2020 the F40 received a major service, including timing belts. In preparation for Classiche certification, additional attention was paid to the fuel system, including new pumps, pressure regulator, and distributor sensor. Original monogrammed Schedoni luggage and leather plaque, certificate of origin, window sticker, owner's manual, tools, and car cover. Included are service records, purchase paperwork, and Classiche Red Book. Lot 039. Sold for 1.63 million.

## William Wilson Haible

### November 28, 1946 - June 20, 2020

William W. Haible, lately of Topsham, Maine, passed peacefully and comfortably on an early June morning recently, the window to his room open and the birds just starting to sing. He was 73 years old.

Born in Boston, MA, November 28, 1946 to Alice W. Haible and William E. Haible, Will was among the early baby boomers.

He grew up in Lexington, MA, attending Lexington schools until moving to Cambridge School of Weston to finish high school. Will went on to Harvard for a degree in Geology, served for a summer in the Peace Corps and then joined the US Navy in 1968, graduating from Officer's Candidate School and joining the USS Maury in the Pacific.

His duty, among others, was to skipper one of the Maury's sounding boats used to create hydrographic maps, a task he loved, and maybe do other nefarious and secretive things, but he's not telling. The Maury saw duty off the coast of Vietnam as well as around the Korean peninsula.

After his stint in the Pacific he was moved to Bermuda where he coordinated surface and air anti-submarine patrols and worked improvements to sound-sensing for Russian submarines, spending time in Greenland and several weeks on a submarine as part of that duty. Will left active duty in 1973 and remained a reserve officer until 1979.

Back in civilian clothes Will went back to his love of geology. After a short spell home in Lexington he traveled west to Berkeley, CA, to get his Master's Degree in Geology from University California Berkeley.

His thesis analyzed changes to Holocene stream morphology due to geography, climate and other factors. Upon achieving his Master's, Will began a PhD program at UC Berkeley, but decided that enough was enough.

Will made a life change, shifting to pursue his other passion which was automotive mechanics. Self-taught and very talented, Will was a meticulous problem solver, leaving no detail unexplored in order make anything mechanical work correctly.

He opened his own shop specializing in the maintenance, restoration and tuning of vintage Ferraris, and was known for making older Ferraris meet strict California emissions standards. Many of his good friendships beyond those from high school and college were made through his 20-plus years of Ferrari work.

Will was also a longtime volunteer and participant in the Virginia City Hillclimb auto racing event in the high country of Nevada, a hair raising 5.2 mile climb that required a fine command of ones car and a healthy respect for the danger involved. Will was also a founding member of the Lake Merritt Rowing Club in Oakland, enjoying a number of years rowing there, maintaining the boats and gaining new friends along the way.

Although he had a number of loving partners, he never married. After more than ten years in retirement his health began to decline, prompting him to move back East to Maine to be near family.

Will is survived by his brothers Thomas "Spike" Haible and his wife Amy of Harpswell, ME; John

Haible and wife Anna of Arlington, MA; and Paul Haible of San Francisco, CA; as well as three nieces, Alexanna and her family, and Renault and Giulia. He was predeceased by his parents, and by his youngest brother Charles Haible.

A private service at some later date will be planned. Will cared deeply for Maine and its environment. Memorial donations can be made to any of the following organizations; Maine Coast Heritage Trust, The Nature Conservancy Maine Chapter, Vinalhaven Land Trust, Natural Resources Council of Maine and lastly, Maine Farmland Trust. He would be happy to know that you cared as well.

*In 1982 Will Haible and Philip Threshie started Threshie & Haible Restorations in San Leandro, CA.*

*They purchased the parts inventory of Chinetti Motors. Several large truck loads of vintage racing engines and parts arrived in California.*

*Many of those parts came from Chinetti's support of factory and privateer racing from the earliest days of Ferrari's entry in America.*

*The treasure trove helped many early racing cars to get their original engines returned to their chassis.*

*Since I was in the parts business, I got to talk to Will often. Just a couple of years ago I was in San Francisco and gave him a call. Our conversation was over two hours and covered a wide range of topics.*

*Intelligent and humble, Will was always a pleasure to work with and helpful to a fault. He will be missed.*
